

Giganet Integrated Data Centre Unit Single Cabinet is Fully integrated with indoor type rack, UPS power, Battery, Cooling, Monitoring, Security, and Fire systems.

FEATURES
Cabinet size: 600*1400*2000mm(W*D*H) (build-in PDU)
UPS 6KVA
Smart Power Distribution (compatible with 4KW and 7KW)
3.5kW rack-mount cooling (constant temperature)
Atmosphere lighting (1 set per cabinet)
Monitoring: 10 Inch LCD display ,monitoring unit (humidity & temperature sensors ,smoke sensor)
Battery packs matching with 6kva UPS ,Standard 3U
Inrow Cooling Applicable for Containment

Battery Module
Battery packs matching with 6KVA UPS , standard 3U size easily extended for longer run time

Monitoring Unit
All in one monitoring host collects, displays and reports system status, locally and remotely.

Cooling System
3.5kW Precision cooling in Rack Mount

Power Supply & Distribution Module
Rack mount power distribution, metering, and management for all the power lines

Fire Module (Optional)
Fire extinguisher and early detection system.

Schematic Diagram

Specifications

Physical Appearance	
Width	600mm
Depth	1400mm
Height	2000mm
Power Section	
UPS	6Kva
Mount Type	Rack Mount
Input Power Type	220V/1 Ph/50Hz
Input Breaker	63A/1 P
Backup Time	15 Minutes
Available Space	20U
Batteries	20 Pieces of 9AH/12V
Cooling Section	
Rated cooling capacity(KW)	3.5 Kw
Dimension (Wx D x H) mm	440 X 940 X 356
Cooling Type	Packaged DX
Monitoring Section	
Display on site	10 Inch touch screen
Temperature/humidity sensor	Yes
Smoke sensor	Yes
Water leakage detection Sensor	Yes
UPS Sensor	Yes
Precision power distribution monitor	Yes
Air conditioner Sensor	Yes
Emergent ventilation	Yes
