

Giganet 1U Brush Strip Panel. These panels are used in place of standard blanking panels to allow pass-through of cables between the front and rear of a rack or cabinet while still providing thermal protection to maintain hot aisle/cold aisle isolation.

#### FEATURES

Manufactured in 1.2mm steel
Powder coated in fine textured high-quality paint
Upper and lower edges formed with 15mm flanges
The front face has an open access point fitted with a brush strip to allow cabling to be passed through and to keep dust out.
RoHS Compliant
Finished in high quality fine textured black
Colour: Ral 9005 Black
