

Giganet Krone Network tool RJ45 Low Impact Punch Down Hand Tool

FEATURES

This is a punchdown tool for putting wires into sockets, patch panels or outlets.

Blades precisely insert and economically trim wire.

Only you need to add, change or remove connections.

Specially designed tool for terminates and trims wires with one low-impact punch, bring new ease and speed to all of your installations.

Durable punch down tool, makes network installation all that easy.

Universal scissors cut a variety of cable types, including 20 AWG to 26 AWG, and type 1 foam-insulated conductors.

A blade helps to easily remove the blocks from back mount frames.
