

Giganet Straight section is used to carry the cables horizontally throughout the system. Accepts cover and fittings. Giganet Fibre runner duct system is designed to ensure maximum capacity, network performance, high level of integrity, minimum downtime and reliability. The system provides optimal performance, protection from physical damage and reduces installation time in a data centre and offices,

FEATURES

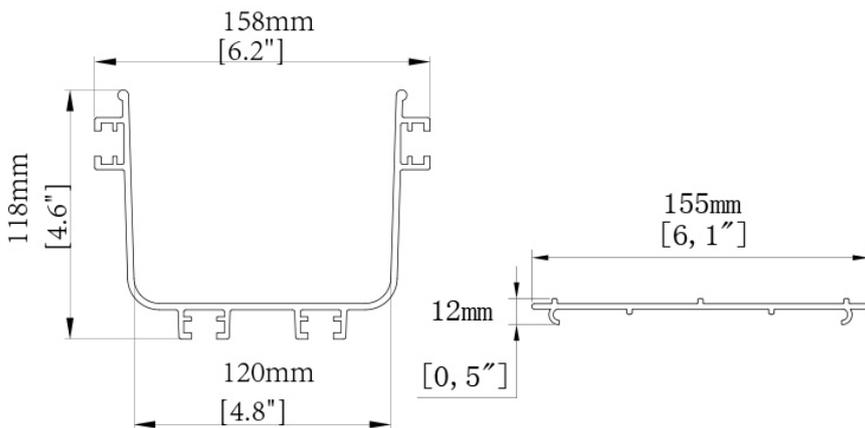

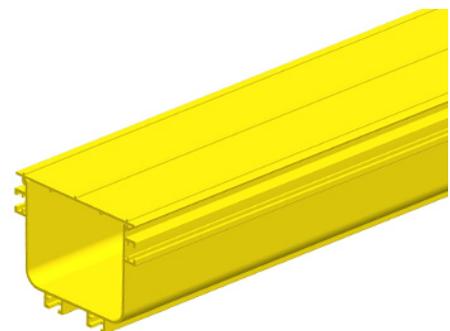

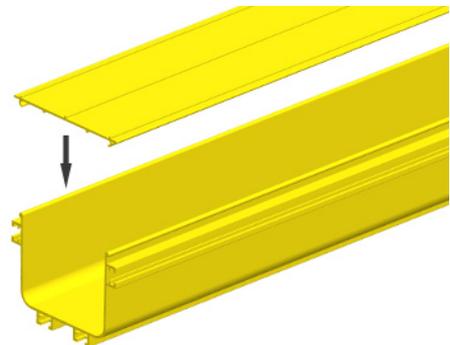

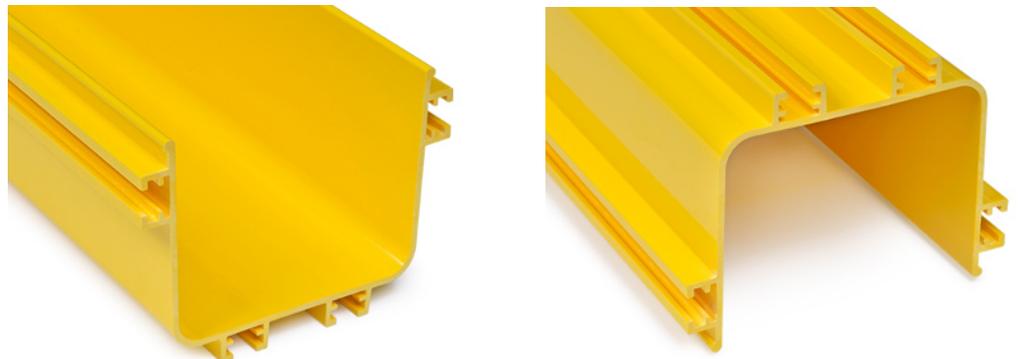

- Network Reliability
- Reduction in installation time and cost
- Enable future expansion
- Flame retardant material rated GB/T2048-2008 FV-0
- RoHS and ABS compliant
- Ideal solution for optical raceway requirement and application

Dimension:

- Height: 100mm
- Width: 120mm
- Length: 2000mm

Fibre Loading Capacity

2mm Fibre PCS	3mm Fibre PCS
955	424
1433	636
1910	848
