

HOT AIR FLOW MANAGEMENT Giganet Blanking Panels

Giganet blanking panels keep hot exhaust air away from cool intake air, extending the life of your equipment, saving energy and reducing the carbon footprint of the data centre. The uniquely adjustable panels can be fitted to every size of rack unit, from one to six. The innovative 'pop-in clip' allows the panels to be installed or removed in seconds without the need for screws or tools.

FEATURES

Snap-on, tool-free mounting designed for ease-of-use and rapid deployment.

UL-94 V0 compliant flame retardant ABS plastic that meets the most demanding requirement.

Patented snappable design offers greater flexibility when applying on different height units.

Scratch resistance textured surface that offers aesthetic appearance and industrial durability.

Recyclable lightweight plastic that is both durable and environmentally friendly.
